The session provided by Mr.Sudeep Ghosh to me (Shilpa) during my Covid period was really helpful and encouraging. It helped me to lessen the mental stress as the meditation session was really productive.

Topic of discussion was good and different in every sessions.

All we need during this time is a moral support and get to engage in other activities which these sessions provide you.

Story telling, mindfulness, meditation, post covid ,hobbies were being discussed and it helped me to recover soon.

Thanks to Sir and team Apollo.
