Dear all,

Thanks to Apollo Homecare for referring me to Sudeep Ghosh Ji for keeping me motivated and generating a fresh new perspective for life during the covid phase of my life. He has made an immeasurable contribution in doing so.

Sudeep ji's presentation of hope & resilience in life as a whole is commendable. His message was engaging, light, and right in line with what I was looking for. He was very down to earth and in fact too modest, I thought. From talking about world leaders to discussing the strategy to deal with obstacles in life, he was able to cover it all. And, this is all in addition to the course.

My takeaway from this program is that *in this life's journey, you may pause but never stop*.

Thanks & Regards,
